

## RESEARCH EXPERIENCE FOR UNDERGRADUATES *Chemistry*

The National Science Foundation, who makes REU (Research Experience for Undergraduates) possible, gives undergraduates the opportunity to join research projects for the summer. This allows students to experience first-hand how basic research is carried out, and to contribute consequentially.

Qualified  
**VETERAN  
APPLICANTS**  
are given priority!

**APPLY TODAY!**

Participants experience the entire scientific process: planning and conducting experiments, interpreting results, drawing conclusions, and presenting their results in written and oral form. The program exposes participants to the full breadth of chemical research, including the vast array of chemistry subfields and related interdisciplinary topics. At weekly luncheon sessions, faculty members present various chemistry research topics, followed by student research presentations in the last two weeks. Additional activities include a career program, an ethics seminar, and a multi-university poster session.

**2022 SESSION INFORMATION:** June 6, 2022 - August 11, 2022  
Syracuse University - Syracuse, New York

**DEADLINE FOR APPLICATIONS:** February 15, 2022

**STIPEND:** Each participant will receive a scholarship of \$6,000 and a food allowance of \$1,000.

**BENEFITS:** All participants will receive university housing at no additional expense in addition to a travel and conference reimbursement (if applicable).

**RESEARCH AREAS:** Students have the opportunity to do research in any of the following areas: Inorganic Chemistry, Physical Chemistry, Biochemistry, Solid-State Science, Chemical Physics, Surface Chemistry, Organic Chemistry, Organometallic Chemistry, Materials Science, X-ray Diffraction, and others.

**APPLY ONLINE AT THE WEBSITE:**
